Web Page : <http://eaces.liuc.it/>

CALL FOR PAPERS The Editors of The European Journal of Comparative Economics (EJCE) welcome submissions of articles from economics scholars involved in topics related to Comparative Economics. In general, we do not wish to restrict the choice of your contribution, because we believe that the field is very wide, and covers both empirical and theoretical problems that concern institutions and their interrelations in the economy. These may concern any sector in the economy, from finance, manufacturing or commerce, and any country, from the South, East, or West (see also Aims and Scope). We hope that you will join us in this endeavour. The paper may be submitted in December 2003 and January 2004 in order to be published for the first issue of 2004, in February-June 2004 for the second issue. All the submitted paper will be evaluated through an anonymous and accelerated refereeing process. To submit a paper, please register yourself and then follow the instructions given in Paper submission.
