Call for Papers The Keynesian Legacy in Macroeconomic Modeling Cassino (FR) - Italy – 16/17 September 2005
Objective In the post-war period, macroeconomic modeling of developed economies was mainly rooted in Keynesian theory up to the 1970s, when the failure of applied models in dealing with stagflation led to a shift in economic theory towards supply side models, rational expectations, optimizing behavior etc., and attention to applied macroeconomic models has considerably diminished among economists. However, existing empirical models based on Keynesian and post-Keynesian principles are sometimes more successful than model based on optimizing behavior in tracking real economies. Moreover, theoretical macroeconomic models are still developed and discussed among economists of Keynesian persuasion. The goal of the conference is to collect state-of-the-art results in what one may broadly label as Keynesian macroeconomic modeling, both on theoretical and empirical grounds, and to or strengthen the network among research groups in this area. Topics Conference topics will include, but are not limited to: - Theoretical models - Growth models - Stock-flow models - Analysis of fiscal policy - Analysis of monetary policy - Models for open economies - Applied models - Models for developed and developing economies - Models for emerging economies - Issues in applied macroeconomic modeling All submitted papers will be reviewed and subsequently made available on the Internet. The conference proceedings will be published. Deadlines Authors wishing to submit a paper should send a 1-2 page abstract by email to zezza@unicas.it in pdf or rtf format, no later than June 15th, 2005. Submissions will be reviewed by a Scientific Committee. Papers accepted for the conference should be sent by email to the same address no later than August 30th. Attendance The conference will be held in Cassino, Italy. The organizing committee will provide transportation to/from Rome airport. All participants will be required to provide for their own expenses details on accommodation opportunities will be provided.
