Econometric Society North American Winter Meeting, 2005 The 2005 joint meeting with the American Economic Association will be held in Philadelphia, PA, January 7 - 9, 2005, as part of the Allied Social Science Association Meeting. The program will consist primarily of contributed papers. The program committee will be chaired by Colin Camerer of the California Institute of Technology. Prospective contributors are invited to submit titles and abstracts of their papers before April 1, 2004. All abstracts are required to be submitted electronically as plain text at the conference web site: http://www.econometricsociety.org/conference/nawm2005 Further details about the submission process will be available on the conference web site. Accommodation information will be available from the American Economic Association web site, www.vanderbilt.edu/AEA/anmt.htm. Submitted abstracts should not be over 300 words in length. Each person may submit only one paper, or be a co-author on multiple submissions provided that if all such papers were accepted, no person would present more than one paper. Abstracts should represent original manuscripts not previously presented to any Econometric Society regional meeting or submitted to other professional organizations for presentation at these same meetings. The following information should also be provided electronically at the time of submission: the authors’ names, affiliations, complete addresses, telephone and fax numbers both the email addresses and web sites (if any) of the submitters the JEL primary field name and number and the paper title. The program committee consists of: Colin Camerer, California Institute of Technology, Chair Susan Athey, economic theory, mathematical economics Peter Bossaerts, financial economics John Duggan, political economy Graham Elliott, applied macro, time series Dan Friedman, game theory, experimental/behavioral economics Robert Gibbons, organizational economics, contract theory Matthew Jackson, applied micro, game theory David Laibson, macroeconomics, behavioral economics Preston McAfee, theoretical industrial organisation Ariel Pakes, applied industrial organization Canice Prendergast, labor economics Antonio Rangel, public finance, behavioral economics Debraj Ray, development, growth Dani Rodrik, international trade Robert Sherman, econometrics
