This is to announce a conference on "Game Theory and its Applications" which will be held in Mumbai, India, from January 8 to 10, 2003 and will serve to launch the Indian affiliate of the Game Theory Society. The earlier external organizing committee, consisting of Robert J. Aumann, Pradeep Dubey and Sylvain Sorin, has delegated authority to a new committee: Pradeep Dubey, Ehud Kalai and Nicolas Vieille. The deadline for papers is September 30, 2002, though we strongly urge earlier submissions. They should be emailed in pdf format to Pradeep Dubey or Nicolas Vieille. We are putting up general information on our website <http://ms.cc.sunysb.edu/~pdubey/Mumbai.html>. Thanks to the Indian Hotel Company, who are our main sponsors, we expect to organize accommodation at subsidized (if not zero) cost. They will also recommend travel agents and put together various sight-seeing packages. All this information will be posted on our website very soon.
